## **Indiana Oral Health Surveillance Report – 2016**

January 14, 2016

*Prepared by:*

**Oral Health Program  
Indiana State Department of Health  
Indianapolis, Indiana**

## Background

The Association of State and Territorial Dental Directors (ASTDD) and the Council of State and Territorial Epidemiologists (CSTE) have recently provided guidelines for what they consider the minimal requirements for a surveillance system related to oral health for each state.

## Current Report

This Oral Health Program (OHP) at the Indiana State Department of Health has prepared an initial report, the *Indiana Oral Health Surveillance Report – 2016*, that provides information that fulfills these requirements. The OHP has also selected this information because it is readily available and is updated on a regular basis by the entities that collect the associated data.

The report is organized so that various oral health metrics are categorized by age group. Some of these metrics indicate the *oral health status* of a certain cohort, while other metrics indicate the proportion of a cohort that has *visited a dentist* or has received a *preventive intervention*.

The last three items in the report refer to oral health-related documents that the OHP periodically produces, which provide information about current and further activities of the OHP, as well as general oral health information for the public.

As the oral health metrics are reported over time, it will be possible to examine trends in oral health in Indiana, which may be useful for various stakeholders when they consider how oral health activities and policies in the state might impact the overall oral health of the residents of Indiana.

INDIANA ORAL HEALTH SURVEILLANCE REPORT - 2016

	Age Group	When every	Source	CSTE Guidelines	2016 Report	
					data from	outcome
<b>Infants, Children, and Adolescents</b>					%	
CONDITION OF TEETH - FAIR to POOR	1 thru 17	4 yrs	NSCH	CSTE-6	2012	6.7
UNTREATED DECAY	3rd Graders	5 yrs	ISDH	CSTE-2	2013	16.7
DECAY EXPERIENCE	3rd Graders	5 yrs	ISDH	CSTE-2	2013	51.0
DENTAL VISIT IN PAST YEAR	1 thru 17	4 yrs	NSCH	CSTE-6	2012	78.3
DENTAL VISIT IN PAST YEAR (Medicaid/CHIP)	0 thru 20	1 yr	CMS	CSTE-5	2014	48.4
PREVENTIVE DENTAL VISIT IN PAST YEAR	1 thru 17	4 yrs	NSCH	-	2012	78.1
PREVENTIVE DENTAL VISIT IN PAST YEAR (Medicaid/CHIP)	0 thru 20	1 yr	CMS	-	2014	45.3
DENTAL SEALANTS	3rd Graders	5 yrs	ISDH	CSTE-2	2013	34.2
<b>Adults</b>					%	
ANY TEETH EXTRACTED	18+	2 yrs	BRFSS	CSTE-3	2014	47.7
MORE THAN 5 AND LESS THAN ALL TEETH EXTRACTED	18+	2 yrs	BRFSS	CSTE-3	2014	11.6
ALL TEETH EXTRACTED (Among adults 65 and older)	65+	2 yrs	BRFSS	CSTE-3	2014	18.0
DENTAL VISIT IN PAST YEAR	18+	2 yrs	BRFSS	-	2014	61.5
DENTAL VISIT IN PAST TWO YEARS	18+	2 yrs	BRFSS	-	2014	72.6
DIABETIC PATENTS WITH DENTAL VISIT IN PAST YEAR	18+	2 yrs	BRFSS	CSTE-7	2014	54.7
<b>All Ages</b>					%	
FLUORIDATED COMMUNITY WATER SYSTEMS	All Ages	2 yrs	ISDH	CSTE-8	2015	95.0
<b>Cancer</b>					per 100,000	
DEATHS FROM ORAL AND PHARYNGEAL CANCERS	All Ages	1 yr	ISCR	CSTE-4	2013	2.3
<b>Oral Health Program</b>					Yes/No	
STATE ORAL HEALTH SURVEILLANCE PLAN	-	5 yrs	ISDH	CSTE-1	2014	Yes
ASTDD SYNOPSIS	-	1 yr	ISDH	CSTE-9	2015	Yes
ORAL HEALTH INFORMATION	-	5 yrs	ISDH	CSTE-10	2015	Yes
